Week 8 Homework

Idea

- Geo location based tinder-esque matching system
- Locate people within your gym who specialise in certain exercise
- Find training partners based on interest
- Profile set up to tell users what they interested in and their goals in the gym to find like minded people
- Ques for how to initial conversation with other gym users at that location.
- Potential QR code to sign into that gyms social system for a potential period of time. Ie 40 Minutes
- Social Aspect boosts motivation and improves community forming within the gym

Backing

- Malinen, S., & Ojala, J. (2011, June). Applying the heuristic evaluation method in the evaluation of social aspects of an exercise community. In Proceedings of the 2011 Conference on Designing Pleasurable Products and Interfaces (pp. 1-8).
- A.S.U. (2012). A Fitter Student Body: Preva Rollout Across ASU Constitutes Largest Networked Fitness Installation Yet. A Fitter Student Body: Preva Rollout Across ASU Constitutes Largest Networked Fitness Installation Yet. Published. https://www.precor.com/sites/precor.com/files/ASU%20Preva%20Success.pdf

Mock up

Your Gym Name here

Active Users within the gym

1. Gym Rat 1
2. Power lifter
3. Larry Wheels
4. Zyzz

Profile

Name: CBum

Hi, I've been doing this for several years. I can help you hit all your pr's. Please come say hi!
